

WAYNE OVATION™

3+0 FUEL DISPENSERS

Wayne is pleased to announce discounts available for CITGO®-branded locations. These discounts, combined with a CITGO incentive of **up to \$3,000 per dispenser**, provides the best opportunity to upgrade your site at an extremely affordable price. Incentives are limited, so act quickly. The suggested pricing examples outlined in this document are representative of the pricing available to you. Local Wayne Authorized Distributors are aware of these discounts and can provide actual pricing based on specific needs and local requirements. The base model pricing for Wayne Ovation fuel dispenser is equipped with the EMV®-ready Wayne iX Pay™ secure payment platform.

Additional discounts are available to CITGO-branded Marketers/Retailers for Wayne Helix™ and HS Ovation fuel dispensers. Please contact your local distributor for more information.

E25 / B20 STANDARD

Wayne Ovation dispensers are supplied with UL E25 Listing as standard. This reflects Wayne's ongoing intent of supplying its customers with the most flexible, reliable and future-proof equipment options. Regardless of which direction the regulations or next generation vehicle technology takes, your investment will remain viable for years to come.

IX PAY SECURE PAYMENT PLATFORM

Comprehensive Security Protections

- Unauthorized removal detection and TDES-encrypted PIN data
- Device authentication, encrypted data links, secure display prompts

Adaptive Functionality Mode

- Patented feature reduces expensive downtime from equipment tampering
- Disables only affected functionality

Remote Key Injection

- On-site encryption key changes
- Reduced costs and downtime to change networks or rebrand site
- Keypad function key overlay flexibility

HYBRID CHIP CARD READER

Comprehensive Security Protections

- Chip card and mag stripe data encryption
- Card reader disabled if removed from system
- Flush mount design resists external skimmer installation

LED Security Status Indicator

- Visual indicator to customers and employees that reader is secure

Mag Stripe Only Mode

- Save installation costs by pre-deploying EMV hardware
- Patented feature disables chip reader until EMV is enabled

Parts Warranty on Chip Reading Functionality through 3/31/2020

WAYNE TAP™ CONTACTLESS / NFC READER

Alternative Mobile Payments Support

- Modular extension to secure payment platform
- Multiple forms of NFC / contactless payment
- Attract new customers with convenient tap-to-pay experience

EMV-Ready

- Supports current magstripe and EMV contactless protocols
- Minimizes EMV migration costs

Faster Transaction Speed

- Inherently faster by eliminating card swipe

SMART SECURE ACCESS

- The ultimate in security to keep people out of your dispensers

WAYNE SITE AND DISPENSER CONNECTIVITY OPTIONS

Wayne Fueling Systems also offers media, site management and site connectivity tools to enhance your customers' forecourt experience. See below for greater detail on these options.

WAYNE CONNECT™ IP-485® NETWORK SOLUTION

Long Distance Capabilities

- TCP/IP connectivity for EMV transactions with existing site wiring
- Reliable performance to 600-ft distances

Cost Savings

- Significant cost savings vs. running new conduit and breaking concrete
- One module per dispenser
- One in-store server per site (sold separately)

Enables Media and Remote Monitoring

- Provides TCP/IP for media at the dispenser (inOvationTV™ media platform & Wayne iX Media™ platform)
- Supports iSense remote monitoring
- Ample bandwidth for media in parallel with EMV payment transactions
